# Project 1 – Garage Organizer Kit

Materials
- 1–5 sheets of card stock (depending on how many boxes you want to catalogue)
- 2–6 sheets of sticker paper or HP Restickables
- Scissors
- Tape

Instructions

1. Print the inventory sheet artwork on card stock. (You may need to print several copies to inventory all your boxes.) Set aside to dry completely.

2. Print both sticker pages on sticker paper or HP Restickables. Set aside to dry completely.

3. Cut out each number and graphics sticker (if you're using sticker paper instead of Restickables).

4. Write the contents, location, and label of each box on the inventory sheet and assign a number to each box. Then affix a corresponding numbered sticker to each box. Print additional sticker pages to create numbers 10 and up. Use the graphics stickers to further label your boxes.

Now all you have to do is consult your inventory list to find the right box!
