- Remote problem diagnosis and technical telephone support, 24/7
- Accidental damage protection
- Free product repair
- Fast repair turn-around-time
- Expedited return shipment of your repaired unit back to you free of charge

Specifications

Table 1. HP Service features

Feature or Service	Delivery specifications
e-Support	HP offers an extensive array of self help web based support solutions for fast and quick resolution to problems. These services include, free driver downloads, email support with 1 hour response, e-chat (on selected Products), and technical support information for common problems.
Technical Telephone Support	When experiencing a problem you can place a call to HP's toll free support (1-800-HP-INVENT). A HP support professional will provide remote technical telephone assistance with problem diagnosis, operating system support, configuration, installation, and basic usage assistance. HP may ask you to provide relevant information, start diagnostic tools and perform other supporting activities in order to assist in remote problem resolution.
Accidental Damage Protection	With HP's Accidental Damage enhanced protection, your Product is covered against those unfortunate mishaps in life. Should your Product become damaged as a result of liquid spills, drops or falls, electrical surges, collisions, or any other form of accidental damage, HP will either repair or replace your product free of charge. Major parts replacement is limited to once per year. Major parts include, but not limited to, LCD display screen, processor, motherboard, hard drive, DVD/CD-rom drive, memory, camera lense.
Free Repair, Labor and Parts	<p>If HP's remote problem diagnosis has determined that your HP or Compaq Product requires hardware repair, the HP support professional will log a service call on your behalf and provide you with a HP Service Order Number and pre-paid HP shipping information for shipment of your defective Product. Upon receipt of the defective unit at HP's Repair Center, HP will repair your Product using all parts and materials necessary to return your Product to original operating condition. HP may, at its sole discretion, in lieu of repairing the Product, elect to replace such Product. Replacement Products may be new or equivalent to new in performance.</p> <p>As part of the repair, HP may install engineering improvements and/or firmware updates on your Product to ensure your Product is at the latest support levels and to maintain compatibility with other HP-supplied hardware or replacement parts.</p>
Fast Turn-around-time	HP will endeavour to repair your Product within 3-5 HP business days, except for intermittent failures that may require additional repair time. Turn-around-time is measured in elapsed days from the time your defective Product is received at the HP Repair Center, until the repaired Product has been provided to the HP authorized courier for return shipment. If the Product is received at the HP Repair Center after 5:00pm local time, the turn-around time starts the following business day.
Pre-paid Expedited Return Shipment	HP will return your repaired or replaced Product to you pre-paid via an HP authorized courier. Return shipment will be by overnight transportation where available. Delivery times may vary depending on geographic location.

Service Coverage

HP Service is available within Canada and on HP Products eligible for accidental damage protection coverage and purchased in Canada from HP or an authorized HP Canada reseller. HP's eSupport and remote technical telephone assistance is available 24 hours a day - 7 days a week, including holidays, to assist you. Should your HP hardware require repair, our repair services are available Monday through Friday - 8:00 am and 5:00 pm local time, excluding HP holidays. All these services are available to you for the term of your HP Services extended support plan for the specified Product the extended support plan was purchased for.

Obtaining Service

Support can be reached by calling 1-(800)-474-6836 (1-800-HP invent) available 24x7 including holidays.

Customer responsibilities

It is the Customer's responsibility to:

- Provide all information necessary for HP to deliver timely and professional remote support and/or to enable HP to determine the level of support eligibility.
- Start self tests and/or other diagnostic tools and programs.
- Ensure that the Product is appropriately packaged for shipment via courier to the HP Repair Center
- Install Customer replaceable parts and replacement units in a timely manner
- Perform other reasonable activities to help HP identify or resolve the problem
- Maintain backup copies of all software and data. (HP recommends regular backups.)
- Restore operating system, software and data on the Product after the repair or replacement.

HP may require the Customer to include a print-out of any previously conducted self-test, results or error details together with the failed unit.

Service limitations

At HP's discretion, HP Services will be provided using remote diagnosis and support or other service delivery methods, or a combination thereof. Other service delivery methods may include the shipment of parts specified as Customer replaceable such as, but not limited to; keyboards, mice, floppy drives or ac adapter. HP will determine the appropriate delivery method required in order to provide effective and timely customer support. Services such as, but not limited to, the following are excluded:

- Data recovery
- Software support on software products that were not pre-installed at the factory
- Troubleshooting for interconnectivity or compatibility problems
- Services required due to failure of Customer to incorporate any system fix, repair, patch or modification provided to the Customer by HP

All standard accessories included with the HP base Product and all HP-supplied internal components from the factory, such as memory and CD-ROMs are covered as part of this service. Items that are NOT covered under this HP Service include, but are not limited to:

- Maintenance kits and other supplies
- Consumables, including, but not limited to, ink cartridges, media, and batteries
- Non-HP devices
- Any Product previously repaired by an unauthorized technician or user
- User preventative maintenance
- Customer abuse or intentional damage
- Fire, theft, normal wear & tear
